PLANTS & MACHINERIES

- Imported 5 Ply & 3 Ply Automatic High Speed Corrugated Board Plant
- Imported 4 Colour Flexo High-Speed Printing, Slotting and Die Cutting Machine
- Korean Made High Speed Automatic Folding, Gluing & Stitching Machine
- 2 Semi Automatic Folding & Stitching Machine
- Fully Automatic Glue Making Machine
- Fully Automatic Steam Boiler
- Best-in-Industry Well Equipped Q.C. Lab - Crush Resistance Tester, Bursting Strength Tester, Box Compression Strength Tester, Electronic GSM Tester, Cobb Value Tester, Moisture Meter, Puncture Resistance Tester

INFRASTRUCTURE

BOILER

3 Tonnes capacity fully Automatic Steam Boiler ensures we've ample steam to continuously Produce High Quality Boards

GLUE KITCHEN

Fully Automatic in-house Glue Kitchen ensures both Quality Consistency & Cost Effectiveness for Better Lamination

CORRUGATION

Our 5 Ply & 3 Ply Automatic High Speed Corrugation Plant helps meet most stringent demands urgently

PRINTING

4 colour Flexo High-Speed Printing, Slotting and Die Cutting Machine ensures print customisation without production delay

FINISHING

We're equipped with Semi Automatic & High Speed Automatic Folding, Gluing & Stitching Machine for Quick Stitching & Gluing

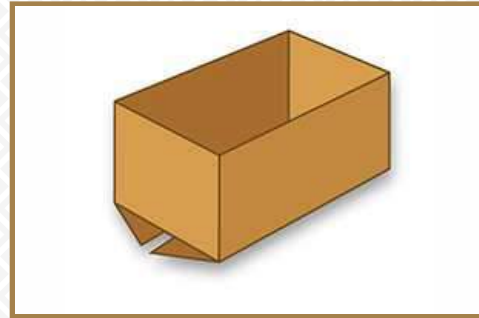

Q.C. LAB

Well equipped QC Lab & dedicated technicians check quality of Raw Material, W-I-C & finished goods to ensure you get nothing but the best

PLANTS & MACHINERIES

- 2 Imported High Speed Paper Roll Slitting Machine
- 3 High Speed Spiral Paper Core Winding Machine
- 4 Custom made Drying Chambers with Hot Air Generator
- 7 Fully Automated Paper Tube Finishing lines
- 1 Semi Automated Paper Tube Notching Machine

RAW MATERIAL TESTING FACILITY

- Plybond Tester
- Crush Tester
- GSM Tester
- Cobb Tester
- Caliper Tester
- BF Tester
- B6 Cup Viscosity Tester

TUBE TESTING FACILITY

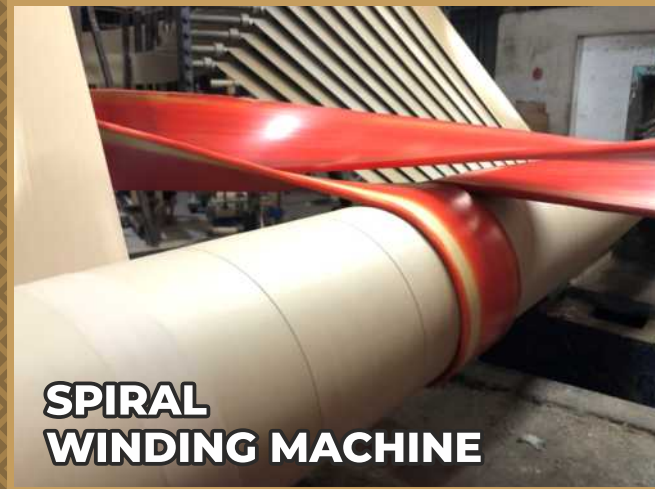

- Core Compression Tester
- Digital ID, OD & Length Vernier Caliper Testing
- Precision Weight Machine for Paper Tubes
- Go-no-Go length gauge

INFRASTRUCTURE

PAPER ROLL SLITTERS

We slit our Paper Roll in-house, to maintain the accuracy of the size of slitted Paper and to adjust the sizes with the changing season

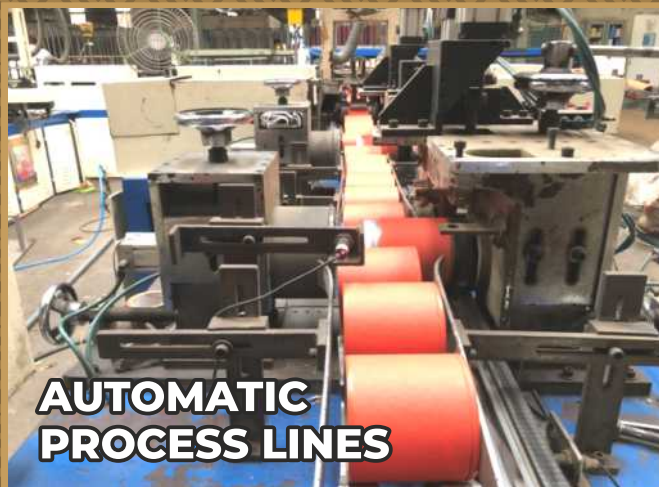

SPIRAL WINDING MACHINE

Our high Speed Winding machines help us to ensure regular supply of long cores customised according to clients requirements

DRYING CHAMBERS

We have 4 customised Drying Chambers dedicated to heat dry each Tube equally so as to avoid any variations in finished Paper Tubes

AUTOMATIC PROCESS LINES

We have 6 Automated Cutting & Finishing lines that cut long Tubes & polish them efficiently to deliver the product on time

RAW MATERIAL STORAGE

With years of Experience & Vendor Integrations, we always have ample raw material for any last minute order for timely delivery

PLANT AREA

Our total plant area is spread across 60,000 sq.ft. which allow us to set the entire process line to optimise time and costs including storage

POY/FDY/IDY AND PAPER TUBES

Leading Manufacturers of DTY Paper Tubes & Corrugated Packaging Solutions

Established in 1997, Hariom Paper Products is a leading manufacturer and supplier of DTY paper tubes & cores and corrugated boxes, sheets and liners.

The plant is spread over 1,25,000 sq.ft. of land area with constructed shed area of 60,000 sq.ft. located in Balitha-Vapi. It has achieved technological advances in handling raw materials, packaging and logistics to make exceptional tough tubes. We are in capacity to instantly expand multi-fold to meet new demands of local and export markets.
